HST transmission

Kubota's reputable and versatile HST transmission is easily controlled by a single foot pedal and produces a maximum travel speed of 10 km/h.

Shaft drive

Unlike the belt-drive system used in petrol mowers, our shaft-drive transmission, shaft-drive PTO, and wet-type mechanical PTO clutch are incredibly durable and trouble free.

Make lawn mowing trouble-free with the easy-to-attach and use 3-in-1 mower deck.

INFINITY DECK

Named for its distinctive counter-rotating figure-eight grass flow, the Infinity Deck's most notable benefit is its ability to quickly and easily change cutting modes without having to change

blades. The proprietary secret behind this 3-in-1 deck is its sturdy steel "gate" that slides to cover the discharge area, thus speedily turning the deck into a mulching deck.

1 Side-Discharge Mode

In this mode, the deck discharges grass evenly and efficiently through the side of the deck, utilizing two counter-rotating blades. The flow created by these blades is where the Infinity Deck gets its name.

2 Mulching Mode

To change from side-discharge to mulching mode, simply slide the steel gate, conveniently located on the outside of the deck, to the front of the discharge area. This feature, along with the deck's rounded shoulders, keeps grass under the deck, ensuring the perfect mulch. No special blades, tools or optional attachments are needed.

3 Grass Collecting Mode

Using the optional grass collector is now easier than ever. Its innovative design makes attaching the grass collector boot simple as well; no tools required. Just use your hands to attach and detach for your occasional collecting needs.
