Proven

“ We care about our customers; their requirements; the advice, service and support we provide and treat all our partners with respect. ”

## Our Strengths

1. Long-standing Groundscare specialists – Over 45 years with Kubota
2. Two modern regional centres conveniently located next to the motorway network serving North West England and Yorkshire
3. Comprehensive New & Used machinery range from major manufacturers
4. Expert advice and friendly service from our knowledgeable team
5. Extensive hire fleet of specialist equipment
6. Service and support from our skilled workshop and mobile engineers
7. Fixed price contract service packages
8. Extensive showrooms and excellent parts availability at both regional centres
9. Continuous investment in the latest technology to provide the best possible after-sales care
10. Quality and Health and Safety accredited to provide total peace of mind

British Agricultural and Garden Machinery Association

## About GGM

GGM Group are a leading machinery dealership with an impressive heritage including partnering with Kubota as a leading dealer for over 45 years supplying tractors, high-quality professional Groundscare machinery and after-sales support. We operate across the North of England from modern premises with excellent after sales back up ensuring customers are exceptionally well catered for no matter what their requirement.

## Our Team

We have a highly skilled workforce who share a passion for providing a high quality and professional level of service to our customers. We are proud that our team of over 40 are rated as some of the best in their field and we empower them to help customers realise their objectives.

At GGM we are focused on progression, which is why we continually invest in new technology to ensure we continue to deliver a proven professional service in a customer driven proactive manner.

Training

In today's current financial climate, it's important to find an affordable solution to your groundscare needs and the range of hire equipment from GGM offers you a cost-effective solution.

At GGM Hire we take the time to explain to you the safe and effective way to get the most from your equipment and maximise your productivity.

The GGM Training Courses provide delegates with the skills and knowledge required to safely operate and maintain relevant machinery. The LANTRA accredited training courses are hands-on courses that deliver both practical skills and health & safety guidance.

## FRANZEN

Chainsaw Sharpening - As a professional working with trees, it's very important to ensure the chainsaws chain stays sharp. Here at GGM we offer a chain sharpening service for all types of chainsaws and your chains will be sharpened by the highly efficient Franzen SA6 which returns chains to factory standard.

## Our Mission

// To engage with our customers and our people to deliver excellence and quality in everything we do.

At GGM we put the customer at the heart of everything we do so you can be confident that we will give you the best advice on machinery, hire or service and provide the professional quality support you require.

This means our customers can trust our recommendations, see the results for themselves with our on-site demonstrations and be confident of a professional service.

After all, it's no coincidence that we've been awarded the highly regarded Kubota Gold + Service Excellence award.

We incorporate quality, social responsibility and care for the environment into our operations to ensure we provide a reliable service, a safe working environment, minimal impact on the environment and undertake annual charity fundraising.

As part of our social responsibility, we've taken part in the Manchester 10k, raising funds for the North West Air Ambulance.

## Quality of Service

GGM identified a gap in the market in the level of customer service and quality of products on offer to the Arboriculture sector and expanded our offering with the development of GGM Ag & Arb to not only meet the needs of customers, but to exceed them.

GGM recruited sector specialist Phil Edmondson to head up GGM Ag & Arb who coupled with our comprehensive expanded range of specialist arb machinery ensures we are able to offer customers with a first-class product offering as well as a first-class level of customer service.

## Award winning after sales

GGM appreciate that a reliable after sales offering is key and we have a full team of experienced industry trained engineers and parts advisors ready to assist customers when required so you can have total peace of mind that we are on-hand should you need us.

## Technical

As well as our in-house engineers, we have our own fleet of mobile service vehicles to allow for on-site servicing and repairs. All of our experienced technicians are factory trained by our manufacturers to ensure our skill levels are maintained to enable us to continue to meet the changing demands of our marketplace.

## Parts

Our online Parts Shop gives customers 24/7 access to machinery parts by manufacturer and model, ensuring that you can order those crucial parts at a time that is convenient to you.

If however you would rather speak to our dedicated parts team, they are on-hand to offer a quick and efficient response to your requirements to minimise downtime.

We have a large stockholding of spare parts ensuring we are able to ensure that customer orders are dispatched quickly and efficiently. All orders received before 3pm, that can be supplied from stock, are dispatched for next day delivery.

// Our product range is a showcase of the very best in arboriculture machinery, offering of high quality, high performing machinery from industry leading manufacturers including chippers & shredders, stump cutters, utility vehicles and mini-loaders. //

## Our product range includes:

FSI is a highly-rated, leading stump grinder manufacturer with a range of grinders including small narrow access pedestrian machines, larger engaged

tracked units as well as excavator and tractor mounted grinders which suit all professional users within the industry.

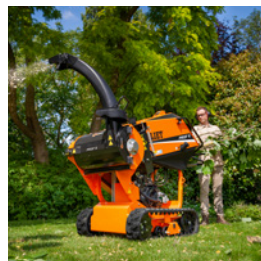

Kubota is a recognised brand known for producing high-quality, durable machinery. The Kubota RTV series are versatile utility vehicles that are used by many

arborists due to having the ability to navigate rough terrain, transport equipment, and haul loads like branches or wood.

TP Chippers include a full range of quality mobile and tracked chippers ranging from 4" to 11" and PTO machines up to 16" infeed, giving them possibly the

largest range of chippers on the market. Their innovative designs and forward thinking development means they also offer a range of market leading, fully electric chippers ideally suited to urban working for forward thinking contractors and local authorities.

For the commercial contractors, ELIET shredders provide a compact powerful solution to processing green waste on site, from small pedestrian wheeled

units which easily fit in a small van to larger tracked and driven wheeled machines, ELIET have a shredder for most requirements.

The Canycom Brushcutters are designed to work in the toughest conditions, these machines effectively clear long grass, bushes, weeds, bracken & brambles in a variety of sites such as woodland trails and orchards. The AWD enables ease in operation and manoeuvrability to ensure high energy efficiency and great results on steep slopes.

The Stella range of specialist long grass and slope mowing machinery offer high performing solutions. The Racon ride-on flail mowers and the URS tracked

remote control mowers offer the right machine for almost all areas of outdoor work and are perfect for local authorities, groundskeeping, contractors and private users.

Köppel manufacture high quality, high performance two-wheel compact tool carriers including innovative electric models suitable for professional use

with a comprehensive range of rapid change attachments. This unique system enables machines to be built to meet specific needs whatever the task.

## BJT BRIAN JAMES TRAILERS

Brian James Trailers design and manufacture road trailers built to perform to the highest standards. With an extensive range of trailer options including the

popular Brian James Trailers Tipper range which comes with a host of market-leading features including a 'Click & Clamp' system with auto-adjusting posts and locking clamps for easy fit rattle-free sides, battery trickle charge, as well as side extensions and much more.

## WORKYQUAD MINILOADERS

A skid-steer loader range that are becoming much sought after by arborists initially to reduce manual handling but with a large amount of different attachments inc. flails,

posthole borers etc the Worky-Quad soon becomes an essential tool for all operations on site and around the yard.
